

Genetwister is an innovative Dutch biotechnology company specializing in molecular breeding and bioinformatics of agricultural, horticultural and ornamental plants. Through our research projects we help our customers improve crop quality to enable more sustainable farming and a more reliable food supply for the future. We develop software for database management and perform data analysis and data mining for our shareholders, five internationally renowned breeding companies we are proud to serve.

As part of our ambition for further growth of the company, Genetwister has a vacancy for a

Financial Controller (0,6 fte) all-round financial expert

YOUR POSITION

The Financial Controller is responsible for project administration, invoicing, accounting, accounts receivable, and declarations of taxes. The Financial Controller also reviews financial data, prepares (monthly) management reports, financial statements and financial projections. In addition, you will assist the Head of Finance, the management team and project leaders with (project) budget processes and cost control. You will provide the management team with relevant information and expectations to aid in decision making. Furthermore, finance related activities may also be part of the responsibilities. The Financial Controller reports to the Head of Finance.

YOUR PROFILE

- BSc degree in finance/business administration and accounting or comparable education.
- Experience as financial controller and having a hands-on approach.
- Having an open eye for improvements in the financial administration and providing appropriate feedback to the Head of Finance and the management team.
- Enthusiastic about working in an innovative research company and advising colleagues about financial aspects of projects.
- Eager to stay informed about new developments in the professional field of financial accounting, control, rules and regulations, also in an international context.
- Very good communication skills.
- Taking initiative and the ability to work as part of a team.

WHAT WE OFFER

Genetwister offers you a challenging job in a commercial research environment. You will work in a passionate and research-oriented team with emphasis on new technologies and innovation. Compensation will be attractive and competitive.
